### Codici di finitura della superficie

Descrizione	Denominazione	Codice
AR Plus®	AB	AB
Gloss	GLS	90
Linewood	LNW	LW
Matte 58	MAT	58
Metallic	Metallic	99
MicroDot	MIC	MC
Midgrain	MGN	47
Naturelle	NAT	NT
NDF	NDF	11
Quarry	QRY	75
Rigato	RIG	RT
Sculpted	SCU	SP
Softmat	SMT	73

La scelta della finitura superficiale ha una grande importanza funzionale ed estetica. Le seguenti finiture sono indicate per applicazioni verticali od orizzontali ma a basso tenore di utilizzo cioè dove il laminato non è in contatto diretto con oggetti che potrebbero danneggiare la superficie: Rigato (RT), Gloss (90), Naturelle (NT), NDF (11), Softmat (73).

### CGS: Spessori proposti:

Compatto un lato decorato: 2, 2.5, 3 mm  
 Compatto due lati decorati: 4, 6, 8, 10, 12, 14, 16, 18, 20 mm

**Classe HPL/EN 438-3 HGP** Laminato decorativo ad alta pressione postformabile per applicazioni orizzontali, spessore nominale 0,7 mm.

**Classe HPL/EN 438-3 HGS** Laminato decorativo ad alta pressione standard per applicazioni orizzontali, spessore nominale 0,7 mm.

**Classe HPL/EN 438-4 CGS** Laminato decorativo ad alta pressione standard, per applicazioni generali, compatto.

EN 13501 Euroclass C-s1,d0

Il laminato ColorCore® e' fornito comprensivo di pellicola protettiva.

ColorCore è disponibile nei 16 colori selezionati dalla gamma Formica® Colors. Date le caratteristiche speciali di ColorCore, non sempre è possibile una corrispondenza esatta tra ColorCore e Formica Colors. Si raccomanda di confrontare campioni reali prima della specifica o della produzione.

Il colore nero brillante si usura più velocemente rispetto a colori più chiari.

**Classe HPL/EN 438-9 BTS** Laminato decorativo ad alta pressione sottile, classe standard, con anima colorata.

La moda è decisiva per il potenziale creativo di una trama pronta all'uso. Tre gradazioni offrono prospettive diverse, dal look "tessile" a quello marcatamente grafico. Opzioni differenti forniscono anche una scelta più ampia. Il fascino senza tempo della grafica puntiforme è rivisitato attraverso un disegno casuale per creare un look fresco. Scegli una delle offerte promosse qui sopra o crea i tuoi abbinamenti con le tinte unite Formica® con punti NCS, RAL o PMS.

### Codici di finitura della superficie

Descrizione	Denominazione	Codice
AR Plus®	AB	AB
Gloss	GLS	90
Linewood	LNW	LW
Matte 58	MAT	58
Metallic	Metallic	99
MicroDot	MIC	MC
Midgrain	MGN	47
Naturelle	NAT	NT
NDF	NDF	11
Quarry	QRY	75
Rigato	RIG	RT
Sculpted	SCU	SP
Softmat	SMT	73

La scelta della finitura superficiale ha una grande importanza funzionale ed estetica. Le seguenti finiture sono indicate per applicazioni verticali od orizzontali ma a basso tenore di utilizzo cioè dove il laminato non è in contatto diretto con oggetti che potrebbero danneggiare la superficie: Rigato (RT), Gloss (90), Naturelle (NT), NDF (11), Softmat (73).

### CGS: Spessori proposti:

Compatto un lato decorato: 2, 2.5, 3 mm

Compatto due lati decorati: 4, 6, 8, 10, 12, 14, 16, 18, 20 mm

Codice	Nome	Classe	Format (mm)

*I laminati DecoMetal® sono forniti comprensivi di pellicola protettiva.*

**Classe HPL/EN 438-8 MTF** Laminato decorativo ad alta pressione, sottile, ritardante alla fiamma, metallico.

**Classe HPL/EN 438-8 MTP** Laminato decorativo ad alta pressione, sottile, postformabile, metallico.

*Le classi MTF & MTP sono indicate per applicazioni verticali.*

*I laminati DecoMetal soddisfano i requisiti della norma EN 438:2005, Classe MTF con certificazione IMO/MED e con autorizzazione USCG in materia di requisiti antincendio. È possibile richiedere maggiori dettagli.*

# Descrizione prodotto

## Formica® Laminate

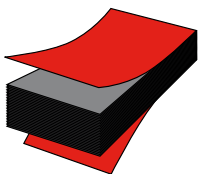

THE ORIGINAL HIGH PRESSURE LAMINATE by FORMICA GROUP

Il Laminato ad Alta Pressione (HPL) Formica® viene prodotto fondendo strati multipli di carta impregnata ad alta pressione e temperatura per creare un materiale di rivestimento inalterabile, durevole e igienico. Le gamme Formica® di Colors, Patterns e Woods sono laminati ad alta pressione disponibili in HGP (laminato postformabile per applicazioni orizzontali). Su richiesta è disponibile anche la versione ignifuga (qualità VFP).

## Formica® Compact

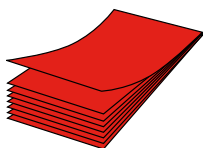

STRUCTURAL LAMINATES by FORMICA GROUP

Formica® Compact è un laminato strutturale ad alta pressione, composto da strati multipli di carta kraft, utilizzata per produrre un laminato dello spessore compreso tra 2 mm e 20 mm. Entrambi i lati sono decorati ed è l'ideale per l'impiego in interni, in toilette o ante di armadi, pannelli per pareti o mobili per laboratorio. È particolarmente adatto nelle zone ad alta umidità e impatto. Con una densità di 14 kg/m<sup>2</sup> (per 10 mm di spessore), Compact è straordinariamente forte e resistente ai danni, con una notevole stabilità strutturale, perché non richiede un supporto di substrato per spessori superiori ai 6 mm. Formica® Compact è contrassegnato dal marchio CE, perché rispetta o supera la conformità ai requisiti di sicurezza, salute, e ambiente dei consumatori europei.

## ColorCore®

SOLID COLOUR LAMINATES

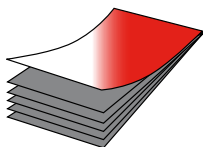

ColorCore® di Formica Group è uno straordinario, incredibile materiale di rivestimento spesso 1,3 mm, che presenta le alte prestazioni dei laminati decorativi Formica®, con la caratteristica aggiuntiva dell'omogeneità del colore. Questa uniformità previene la riga scura talvolta associata ai bordi del laminato e permette di creare effetti decorativi attraverso incisioni e sabbiature. ColorCore® nella finitura Matte 58 innalza i limiti di usabilità e riduce l'impatto visivo di scheggiature e graffi. ColorCore è l'ideale per applicazioni quali le superfici dei banconi, punti vendita, le porte e piani di lavoro.

ColorCore è disponibile in 16 decori selezionati dalla gamma Formica Colors. Date le caratteristiche speciali di ColorCore, non sempre è possibile una corrispondenza esatta tra ColorCore e Formica Colors. Si raccomanda di confrontare campioni reali prima della specifica o della produzione.

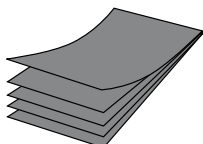

PREMIUM GLOSS FINISH by FORMICA GROUP

I colori ed i legni AR Plus® ad alta brillantezza offrono un laminato perfetto e durevole con prestazioni doppie rispetto a un laminato con brillantezza standard. La tecnologia AR Plus presenta una superficie brillante altamente resistente alle abrasioni da rigatura e strofinio, che aumenta la durata del laminato. I laminati ad alta brillantezza AR Plus sono postformabili, con uno spessore di 1,2 mm. A causa dello spessore più elevato del materiale, si consiglia un raggio minimo di 15 mm. Su richiesta è disponibile anche la versione Ignifuga del laminato AR Plus (classe FAR).

## DecoMetal®

METAL LAMINATES

Il laminato ad alta pressione DecoMetal® del Gruppo Formica viene realizzato utilizzando sottili fogli di autentico metallo su un'anima di laminato per creare magnifici laminati metallici durevoli e molto leggeri rispetto alla lamiera. Ad alcuni laminati metallici vengono applicate trame e motivi che creano effetti straordinari. È disponibile una gamma completa di colori, motivi e finiture sorprendenti. Lo spessore nominale varia a seconda del foglio di metallo e della trama.

I laminati DecoMetal soddisfano i requisiti della norma EN 438:2005, Classe MTF con certificazione IMO/MED e con autorizzazione USCG in materia di requisiti antincendio. È possibile richiedere maggiori dettagli.

Questa collezione comprende le seguenti classi di laminato decorativo, ciascuna con le proprie caratteristiche. Queste classi sono conformi alla norma EN438:2005.

## Formica® Laminate

- Classe HPL/EN 438-3 HGP** Laminato decorativo ad alta pressione postformabile per applicazioni orizzontali, spessore nominale 0,7 mm.  
**Classe HPL/EN 438-3 HGS** Laminato decorativo ad alta pressione standard per applicazioni orizzontali, spessore nominale 0,7 mm.  
**Classe HPL/EN 438-3 VFP** Laminato decorativo ad alta pressione postformabile ritardante alla fiamma, verticale, spessore nominale 0,7 mm.

## AR Plus® by Formica Group

- Classe PAR** Laminato decorativo ad alta pressione postformabile ad alta brillantezza resistente alle abrasioni.  
**Classe FAR** Laminato decorativo ad alta pressione, standard, ad alta brillantezza, Ignifugo.

*Le classi PAR e FAR non compaiono nel sistema di classificazione della norma EN 438.*

## ColorCore® by Formica Group

- Classe HPL/EN 438-9 BTS** Laminato decorativo ad alta pressione sottile, classe standard, con anima colorata.

## Formica® Compact

- Classe HPL/EN 438-4 CGS** Laminato decorativo ad alta pressione standard, per applicazioni generali, compatto.  
EN 13501 Euroclass C-s1,d0  
**Classe HPL/EN 438-4 CGF** Laminato decorativo ad alta pressione, ritardante alla fiamma per applicazioni generali, compatto.  
EN 13501 Euroclass ≥ 6 mm B-s1,d0  
< 6 mm B-s2,d0

## DecoMetal® by Formica Group

- Classe HPL/EN 438-8 MTF** Laminato decorativo ad alta pressione, sottile, ritardante alla fiamma, metallico.  
**Classe HPL/EN 438-8 MTP** Laminato decorativo ad alta pressione, sottile, postformabile, metallico.

*Le classi MTF & MTP sono indicate per applicazioni verticali.*

*I laminati DecoMetal soddisfano i requisiti della norma EN 438:2005, Classe MTF con certificazione IMO/MED e con autorizzazione USCG in materia di requisiti antincendio. È possibile richiedere maggiori dettagli.*
